

Metformin HCl

Weifa is a leading supplier of high quality Metformin HCl, an active pharmaceutical ingredient in first-line treatment of diabetes II, and commands around 8 percent of the global Metformin HCl market. Weifa produces Metformin HCl at a dedicated modern plant in Kragerø, Norway: the world's largest production line for Metformin HCl with batch sizes of 3000 kg. Our Metformin HCl is synthesised and processed to supply the market with the purest and best free-flowing quality.
